Soapstone: Where Performance Meets Timeless Aesthetics

Soapstone's soft, tactile surface, subtle veining, and deep natural tones—from grays to blues and greens—create a material that is visually compelling and highly versatile, allowing architects to craft spaces that are both beautiful and enduring. Each slab is unique, offering a story in its color, texture, and interaction with light.

Soapstone in Architecture and Design: The Benefits

- **Authentic Beauty:** Elegant veining, rich tones, and a matte finish that ages gracefully.
- **Superior Performance:** Heat-resistant, non-porous, and easy to maintain, ideal for countertops and high-heat applications.
- **Creative Flexibility:** Allows precise carving, shaping, and finishing for custom applications.
- **Sustainable & Responsible:** Sourced with environmentally friendly practices for long-lasting use.
- **Health & Safety:** 100% natural, non-toxic, and suitable for both indoor and outdoor spaces.

Custom Finishes & Mineral Oil Applications

We can customize the soapstone's appearance with all-natural mineral oil:

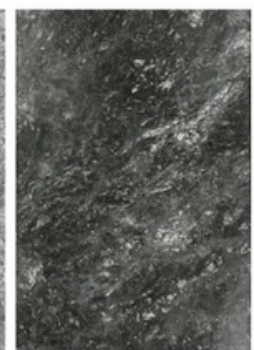

- (L) Surface without oil: Natural look showcasing veining.
- (R) Treated with 4 coats of mineral oil: increases color depth and warmth for aesthetic control.

Samples with different oil layers can be requested to assess tone, depth, and finish.

Endless Applications

Soapstone: A Truly Versatile Material

KITCHEN COUNTERTOPS
+ BACKSPLASH

BATHROOM SINK VANITY
+ FLOORS

Soapstone is highly versatile due to its durability and heat resistance, making it suitable for various projects that combine functionality with elegant design.

Soapstone's non-porous nature makes it perfect for waterproof shower walls and bases, resisting mold and mildew. It is easy to clean, which makes it the ideal material in environments such as car wash bays where water and chemicals are used.

KITCHEN ISLAND

SPA-STYLE BATHROOM

CAR WASH BAY

With its remarkable ability to withstand high temperatures, soapstone serves as an excellent material for fireplaces, ensuring both safety and longevity. This is just one of the numerous potential uses for soapstone. Naturally resistant to weather, it is an ideal choice for outdoor kitchens, pools, fire pits, and pizza ovens.

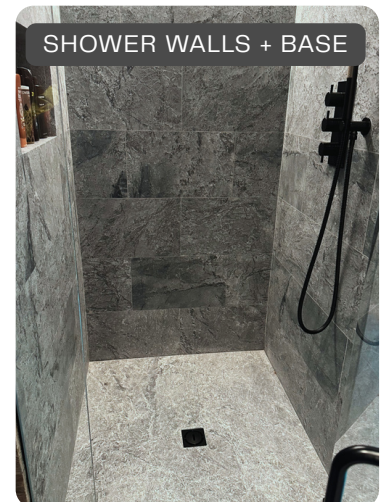

LAUNDRY ROOM COUNTER

OUTDOOR PIZZA OVEN

FIREPLACE WITH BUILT-IN TV

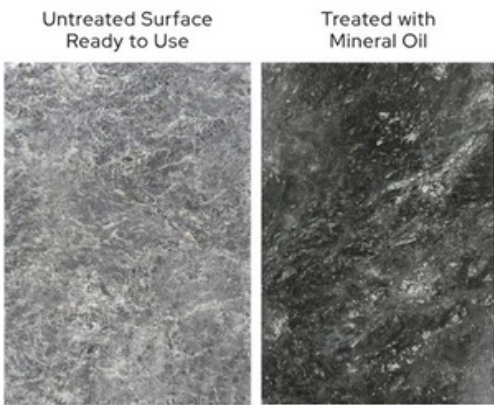

SHOWER WALLS + BASE

Enhanced Customization

The beauty of soapstone can be enhanced (depending on your needs) with mineral oil application, as shown below:

Left: Untreated surface showcasing natural elegance and veining.

Right: Treated with four layers of mineral oil, displaying a richer hue and warmth for refined aesthetics.

Comparison Chart: Soapstone, Granite, and Quartz

Attribute	Soapstone	Granite	Quartz
Hardness	Softer; may scratch but scratches may be sanded or left to add patina and character	Hard and scratch-resistant	Hard and scratch-resistant
Heat Resistance	Excellent; can withstand hot pots and pans	Excellent; heat-resistant	Good; can be damaged by excessive heat
Scratch Resistance	Moderate; scratches add natural character	High; resists scratches	High; resistant but sensitive to some chemicals
Stain Resistance	Naturally non-porous; resists stains	Porous; requires periodic sealing	Non-porous and stain-resistant
Maintenance	Periodic oiling recommended to maintain appearance	Requires sealing every 1-2 years	Low maintenance; no sealing required
Appearance	Natural, unique patina over time	Wide variety of colors and patterns	Uniform, engineered appearance
Environmental Impact	Natural stone with minimal processing; generally sustainable, locally quarried	Natural stone with moderate environmental impact	Manufactured with resins and adhesives; higher impact
Seam Appearance	Can achieve fewer visible seams	Seams vary based on installation	Seams often visible due to fabrication processes

Bring Your Vision to Life with Soapstone Pros

Our soapstone is quarried locally in East Broughton, Quebec

Customized Solutions

Industry Standards

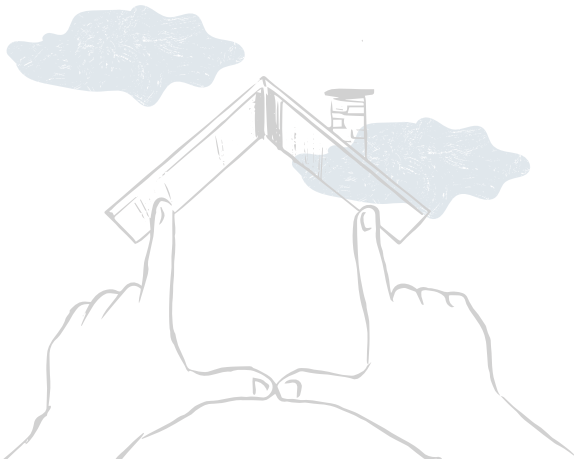

Experienced Team

With soapstone, any surface becomes a canvas for blending form, function, and timeless elegance, creating spaces that are not only admired but built to last.

By choosing Soapstone Pros for your next project, you can trust in our commitment to quality, exceptional craftsmanship, and personalized service. Our talc-rich Canadian soapstone is shipped across North America, ensuring that every project benefits from the finest materials.

We also provide installation services in Ottawa and the surrounding regions. Our team's expertise and dedication guarantee that each installation reflects both beauty and lasting durability. You can rely on us to bring your vision to life with precision and care.

Request a sample to experience the stone firsthand, or visit our website to explore more of our custom projects.
